Policy purpose

The purpose of this examination policy is:

- to make clear the principles which guide the designs of our procedures and systems around examinations and assessments
- to ensure the planning and management of examinations is conducted in the best interest of candidates
- to record key details of process in order to ensure the operation of an efficient examination system
- to record clear guidelines and lines of accountability for all relevant staff
- To include an October update relating to Covid-19

It is the responsibility of everyone involved in the centre's examination processes to read, understand and implement this policy. Sub-policies such as the Assessment Malpractice Policy, and documented procedures such as the process for informing students and parents about NEA results, are included here as appendices in order that all principles and procedures are documented in a single place.

The examination policy will be reviewed by the Senior Leadership Team and Examinations Officer.

Roles and responsibilities

Head of Centre

The head has overall responsibility for the school as an examination centre including ensuring adherence to the general regulations and instructions for conducting examinations. Much of the work associated with this responsibility is expected to be delegated to the Senior Leader with responsibility for examinations.

Senior Leader with operational responsibility for examinations

Oversees the work of the Examination Team, ensuring that policy and procedure are correctly designed and adhered to. Supports the Examinations Officer with the

efficient execution of examinations procedures and the handling of individual queries from students and parents/ carers.

Other senior leaders should not normally be directly involved in the examinations process but should liaise with the colleagues above as necessary.

Examinations Officer

The examinations officer is the key officer responsible for the day to day administration of public and internal examinations.

They are required to:

- advise the senior leadership team, subject and class tutors and other relevant support staff on annual examination timetables and application procedures as set by the various awarding bodies;
- oversee the production and distribution to staff, governors and candidates of an annual calendar for all examinations in which candidates will be involved and communicates regularly with staff concerning imminent deadlines and events;
- ensure that candidates and their parents are informed of and understand those aspects of the examination timetable that will affect them;
- consult with teaching staff to ensure that necessary coursework is completed on time and in accordance with JCQ guidelines;
- receive, check and store securely all examination papers and completed scripts;
- administer access arrangements and makes applications for special consideration using the JCQ publications Access arrangements, reasonable adjustments and special consideration;
- identify and manage examination timetable clashes;
- account for income and expenditures relating to all examination costs/charges;
- train and monitor a team of examination invigilators responsible for the conduct of examinations;
- submits candidates' NEA marks, tracks despatch and stores returned NEA and any other material required by the appropriate awarding bodies correctly and on schedule;
- arrange for dissemination of examination results and certificates to candidates and forwards, in consultation with the SLT, any appeals/re-view of marking requests;
- maintain systems and processes to support the timely entry of candidates for their examinations.

Teachers are required to:

- Notify the SEN team of any possible access arrangements requirements of which they become aware (as soon as possible after the start of the course);
- Submit complete and correct examination entry marksheets for their classes to heads of department by the deadline given.

The SEN Coordinator (SENCo)

- Arrange the assessment candidates who may need individual assessment access arrangements and make decisions about applications for access arrangements in line with JCQ rules;
- Make arrangements for the provision of the required access arrangements through liaison with the examinations team.

Senior/ lead invigilator

In each examination venue there will be a nominated lead invigilator. Their responsibilities include:

- Leading the management of candidates in the examination venue;
- Making announcements to candidates;
- Liaising with members of the senior leadership team in the event that they need to make announcements before examinations begin and assist with the management of candidates;
- Ensuring that there are no unnecessary distractions or breaches of examination regulations in the examination venue;
- Making any announcements that are necessary while any candidates are still working: no other member of staff or leadership should do this;
- Collection of examination papers and other material from the examinations office before the start of the exam;
- Collection of all examination papers in the correct order at the end of the examination and their return to the examinations office;
- Ensure a Covid 19 secure environment for students and staff with adequate ventilation.

Candidates

- Confirmation and signing of entries;
- Understanding and adhering to JCQ regulations;
- Signing the necessary declarations to authenticate all submitted assessments as their own work;
- Avoiding any behaviour which could be interpreted as malpractice.
- Confirm they are free of Covid 19 symptoms on the date of their examination and have not been asked to self-isolate.

Malpractice

The Examinations Officer and Senior Leaders listed above are responsible for investigating suspected malpractice. In such circumstances the procedures set out in the Assessment Malpractice Policy are followed (see Appendix 1)

Qualifications

Qualifications offered

The qualifications offered at this centre are determined by the Head of centre.

It is our policy to offer qualifications which are of genuine benefit to our students; we do not enter students for examinations solely in order to boost apparent achievement in accountability systems.

The vast majority of qualifications offered will be approved by the DFE and OfQual but we do not rule out offering other qualifications where they are of benefit to our students and represent good value for money.

The qualifications currently offered are GCE, GCSE, IGCSE, Extended Project, BTEC, Functional Skills, AQA Unit Award Scheme and Cambridge Assessments. Other qualifications will be offered as necessary, with the approval of the Headteacher.

The subjects offered for these qualifications in any academic year may be found in the Sixth Form Prospectus and the KS4 Course Choices booklet for that year. If a curriculum team is planning to select a different specification, they must discuss this with the Headteacher and Examinations Officer well in advance of entries being due.

Informing the examinations office of changes to a specification is the responsibility of the Curriculum Team Leaders. The examinations team will not be expected to make changes of this nature with less than 6 months' notice before the examination.

Decisions on whether a candidate should be entered for a particular subject will be taken in consultation with the Curriculum Team Leader, SENCO and Head of House. The Senior Leader with responsibility for examinations will normally make the final decision on this, but difficult or sensitive decisions may be referred to the Headteacher.

Examination series and timetables

Internal examinations are scheduled in November, December, January and June.

External examinations and assessments are scheduled in November, January, May and June.

The Senior Leadership team decides which examination series are used in the centre.

Formal internal examinations are held under external examination conditions when it is possible to conduct them in venues such as the sports hall, appropriate classrooms, gym, or the assembly hall. It is our policy to ensure students are well rehearsed in the process of taking formal examinations during Key Stage 3 so that they are a less intimidating experience in Year 11.

Timetable

The examinations officer will publish the general examination timetable for external examinations once entries have been made. The normal place for this is the examinations timetable section of the school website.

Students and their parents/ carers are issued with personal timetables in both electronic and paper format well in advance of the examination season.

Entries, entry details and late entries

Entry decisions

Candidates are selected for their examination entries by the Curriculum Team Leaders in liaison with subject teachers.

Parental requests

A candidate or parent/carer can request a subject entry, change of level or withdrawal. The decision on whether to comply with such requests lies with the Curriculum Team Leader and the Senior Leader. Where the CTL and Senior Leader disagree the Headteacher will determine the decision.

Employee entries

The school welcomes requests from employees to be entered as candidates for examinations. Employees will not normally be accommodated at this centre, due to JCQ regulations, but we may be able to arrange for them to take an examination at a neighbouring centre.

External candidates and associated fees

The school welcomes requests from parents of students, past students or other local residents involved in part time education (e.g. correspondence/ Internet courses, night school etc.) to be entered as candidates for examinations. Each request is judged on its own merits and will only be accommodated where it does not present inconvenience to the school and the examinations process. We make no commitment to accommodating external candidates and reserve the right to decline to accommodate such candidates. The fee charged in such cases will be the examinations entrance fee, plus an amount to cover administration, accommodation and invigilation. This fee will normally be no less than 50% of the examination entry

fee charged by the awarding body but may be more where necessary to cover the cost of making the arrangement. In most circumstances the additional fee will not be more than 100% of the examination entry fee charged by the awarding body. The cost of making the arrangement includes not just the associated invigilation costs but the cost for administrators' time in planning provision and any other costs involved in providing the accommodation needed.

Possible access arrangements for external candidates

We are unable to accept third party reports for exam access arrangements. Under exceptional circumstances we will endeavour to provide the opportunity for external candidates to be tested for access arrangements however there will be a fee for this which will cover the costs of the specialist assessors time, tests and rooming.

Candidates from other schools and institutions

Full time students from other institutions will not normally be accommodated except as part of an arrangement between institutions. Students from other schools and colleges should contact the person responsible for examinations at their institution who should then contact the Examinations Officer at Wilmslow High School if they wish to request assistance.

The centre does not act as an examination centre on behalf of other educational organisations, except through arrangements with organisations that are not registered examination centres.

Late entries

Entry deadlines are published in the Staff Handbook and circulated via E-mail.

Late entries are authorised at the discretion of the Examinations Officer and may incur additional costs.

Retakes

Within the rules of the awarding body, candidates are allowed re-sits at GCSE, AS and A2, for which there is no limit to the number of times that they can take the exam.

For BTEC assessments candidates may also re-sit assessments but only once within a given course.

Retake decisions will be made in consultation with candidates, parents/carers, subject teachers and Curriculum Team Leaders.

Examination fees

GCSE and other Key Stage 4 courses

Initial registration and examination entry fees are paid by the centre (except for external candidates).

AS and A2 and other Key Stage 5 courses

Initial registration and examination entry fees are paid by the centre provided that students meet the sixth form attendance criteria. Where attendance has been poor students may be required to pay a refundable deposit, in order to be entered for examinations.

Late Changes

Candidates or departments will not be charged for changes of tier, withdrawals made by the proper procedures or alterations arising from administrative processes provided these are made within the time allowed by the awarding bodies to make changes without incurring additional charges.

Where late entry or amendment fees are incurred they will be paid by the curriculum teams, centre or candidates depending on where the responsibility for the late change lies.

Fee reimbursements will be sought from candidates who decide not to sit an examination or do not meet the necessary NEA requirements to be certificated in their course without providing medical evidence or evidence of other mitigating circumstances.

Resits

Fees for re-sits are met by the school where the school is instructing a student to retake an examination (for example with GCSE English and maths resits in Year 12). In cases where candidates are themselves requesting the opportunity to resit, the fees are to be met by the candidate or their parents/ carers.

Financial hardship

Students in receipt of Pupil Premium funding or considered to be suffering financial hardship may have their entry fees paid by school at the discretion of the Senior Leader responsible for Examinations.

Disability Discrimination Act

Equality Act

All examination centre staff must ensure that the Access Arrangements and decisions in respect of special consideration applications meet the requirements of the Equality Act 2010.

The centre will meet the requirements of the Equality Act by ensuring that the examinations process is accessible to all members of school, regardless of race, disability or gender and addressing effectively the needs of individual candidates where necessary. This is the responsibility of the Examinations Officer, SENCO and Senior Leader responsible for Examinations.

Access arrangements

The SENCO will inform subject teachers about candidates with special educational needs. The SENCO can then inform individual staff of any special arrangements that individual candidates should be granted during the course and in assessments and examinations. As far as reasonably possible, examination arrangements should reflect, and be reflected in, a candidate's normal way of working in lessons.

A candidate's access arrangements requirement is determined by the SENCO, working with the Senior Leader.

Making access arrangements for candidates to take examinations is the responsibility of both the SENCO working in liaison with the Examinations Officer.

Submitting completed access arrangement applications to the awarding bodies via Access Arrangement online is the responsibility of the SENCO.

Invigilation, support and rooming for access arrangement candidates will be organised by the examination team with the support of the SEN team.

In the event of access arrangements being challenged/queried by students, parents, carers or other stakeholders, we would apply our review process as detailed in Appendix 2.

Assessment Access Arrangements And Privately Commissioned Assessments

The following advice is issued to parents via the school website:

“If you think that your child may have a physical or cognitive condition that is preventing them from learning effectively or demonstrating their knowledge in an assessment then please contact our SEN coordinator for advice. We can investigate and offer advice about whether there are suitable adjustments we can make to give them better access to learning or fairer access to assessment. You can contact the SEN Coordinator by emailing school reception and asking for your email to be forwarded to the SENCo.

If you are considering arranging an assessment or investigation of a condition privately (e.g. through the British Dyslexia Association) then it is vital that you contact us first, because:

- A privately commissioned assessment carried out without prior consultation with the centre **cannot be used to award access arrangements** and cannot be used to process an application using Access arrangements online (please see para this document (2020/20201) : <https://www.jcq.org.uk/exams-office/access-arrangements-and-special-consideration/regulations-and-guidance/>)
- A private/ external assessor may use standardised assessments that are time sensitive and cannot be repeated within a given period of time (e.g. 6 months);

this could prevent us from using these assessments in school and so delay the provision of necessary access arrangements

- The costs for these assessments are often very high, and we may be able to conduct the necessary assessments in school without any cost to families”

Contingency planning

Contingency planning

Contingency planning for examinations administration is the responsibility of the Senior Leadership team. It has built-in resilience as a result of the following structures and policies:

- Two full time examination administrators employed who share skills in all areas of the examinations function and can fulfil each other's roles if and when needed. In light of Covid-19 we have trained an additional member of staff to provide organisational resilience.
- An operational handbook, held in the examinations office, is maintained which explains how our examinations policy is applied in practice and can be used by a new examinations officer to ensure that processes operate as intended
- A calendar of key dates and deadlines is maintained, see Appendix 4, which ensures clarity for all involved about when key tasks must be completed. This document is a working document and subject to regular review.
- A member of the Senior Leadership Team works closely with the examinations team and is able to step in and lead the examination function or directly undertake the key tasks in relation to administering examinations whilst ensuring JCQ and other regulations are observed
- A team of experienced invigilators including several trained to lead invigilation in a large venue is maintained
- Invigilator duties include assisting the examinations administrators with aspects of examination administration in order to provide a pool of people able to step up and take on further responsibility when required
- Other school administrative staff work closely with the examinations team and can be quickly trained up to take the place of examinations administrators if necessary.

Procedures in the event of the centre being unavailable for examinations due to an unforeseen emergency

In all the following scenarios the following steps will be taken

1. The head teacher and/or senior leadership team will be informed as soon as possible by the site staff when there is any issue about access to school buildings
2. The relevant awarding bodies/ JCQ will be informed of the situation and any possible risks as soon as practical by the examinations officer
3. Steps will be taken to ensure that examination material is secure, safe and accessible to examination staff
4. Any necessary communication will be sent to candidates and their parents by the communication systems available (email, SMS, telephone). These systems are partly cloud-based and should therefore be resilient in the case of school ICT equipment being damaged or inaccessible.
5. The senior leader overseeing examinations will determine the appropriate response to the situation, which is likely to fall into one of the following 3 scenarios.
6. Covid-19 closure is judged as a foreseen closure and an alternative contingency plan is in place (see appendix 13)

Scenario 1: venues unusable

Some of our planned examination venues become unusable due to heating failure / contamination / flooding etc.

In this case we will use other parts of the school estate to administer examinations. We will prefer larger venues in order to better manage risk and reduce the need for additional invigilation, but it may be necessary to use senior members of staff to support invigilation in emergencies.

Senior Leaders are familiar with our processes for conducting examinations and able to step in if necessary: they are equipped with an examination invigilator's pack at the start of each examination season and therefore have copies of the JCQ ICE and the school's invigilator's checklist and appropriate PPE.

The order of preference for use as an examination venue is as follows:

1. The Sports Hall (see Covid-19 appendix 13)
2. The main hall
3. The gym
4. The drama studios
5. Room P108 (ASC resource)
6. Rooms 201 – 208 (MFL area)
7. Room P107 (sixth form study area)
8. Room P1-6 & P101 – 106 (bus. Studs / ICT area)
9. The Olympic Hall

It may be necessary to close the school or significantly adjust the curriculum for some year groups in order to accommodate examinations in unplanned venues. This will be done in line with school procedures for closing the school in the event of extreme weather.

Scenario 2: school site inaccessible

The majority of the school site is inaccessible due to an emergency. In this case the examinations stored on the school site may not be accessible so the examinations team may need to cooperate with awarding bodies to receive copies of scripts via the Internet and photocopy.

In this case we will seek a venue within Wilmslow but outside the school site. This is likely to be one of the following venues used by the school in the past for events or as part of partnership arrangements:

- One of our feeder Primary Schools
- Another local school, possibly in the independent sector
- Wilmslow Leisure Centre
- Wilmslow Library
- One of the local churches
- Royal London Insurance
- Other industrial premises

Scenario 3: Wilmslow town inaccessible

If large parts of Wilmslow are inaccessible it is likely that most candidates would find it difficult to attend an examination in any venue, however we would explore the possibility of hosting examinations at a federation partner school or other Cheshire East secondary school. We will seek support from the local authority in securing suitable accommodation if we are unable to make a direct arrangement with a nearby school or college.

Managing Invigilators

External staff are used to invigilate external examinations, except where this is inappropriate e.g. practical examinations.

Regular invigilators will be subject to a Disclosure and Barring Service check from the Disclosure and Barring Service. These were previously known as CRB checks. This is the responsibility of the Director of Personnel. Invigilators who are late recruits or temporary cover will be the subject of a risk assessment until a DBS check has been completed.

- DBS fees for securing such clearance are paid by the centre.
- Invigilators are timetabled, trained and briefed by the Examinations team.
- Invigilators rates of pay are set by the centre administration.
- Covid-19 appendix 13

Examination days

The examinations officer will book all examination rooms after liaison with other users and make the question papers, other examination stationery and materials available for the invigilator and ensure Covid-19 guidelines are in place.

Site management is responsible for setting up the allocated rooms.

The Lead Invigilator in each examination room will start all examinations in accordance with JCQ guidelines, or the guidelines of the appropriate body where the examination is not under JCQ jurisdiction.

In practical examinations subject teachers and technical support staff may be on hand in case of any technical difficulties.

Examination papers must not be read by subject teachers, invigilators or removed from the examination room before the end of a session. All examination papers will be returned to the Examinations Office at the end of the examination session. These will not be released to curriculum teams until all examination scripts have been checked, packaged and despatched for marking.

Candidates

The centre's published rules on acceptable dress, behaviour and candidates' use of mobile phones and other electronic devices apply at all times.

Candidates will be issued with photographic identity cards either as part of normal school policy (sixth form and year 11) or near the start of the examinations season (Year 10 and below). They must bring these to every examination in order that invigilators can verify their identity.

Candidates are issued with individual examination timetables detailing their seat numbers and other details. They are instructed to bring an unmarked copy of this to every examination and keep it in their clear pencil case. Invigilators normal duty and spot checks by senior leaders will check that the examination timetable is unmarked.

Candidates will be briefed on examination and Covid-19 protocols and warned about the consequences of malpractice in an assembly before the start of each examination season.

Candidates' personal belongings remain their own responsibility and the centre accepts no liability for their loss or damage.

Disruptive candidates are dealt with in accordance with JCQ guidelines or the appropriate guidelines where the examination is not under JCQ regulations and school policy.

Candidates are expected to remain in the examination room for the full examination time. In special circumstances candidates may be allowed to leave before the end of

the exam. This will be at the discretion of the examinations officer or senior invigilator and in accordance with JCQ regulations.

Candidates may leave the examination room for a genuine purpose and are required to return immediately to the examination room. They must be accompanied by a member of staff at all times.

Student Services (including the sixth form pastoral team) will attempt to contact any candidate who is not present at the start of an exam. Late candidates will be dealt with in accordance with JCQ guidelines.

Clash candidates

The examinations officer will be responsible as necessary for supervising escorts, identifying a secure venue and arranging overnight supervision.

Special consideration

Should a candidate be ill before an exam, suffer bereavement or other trauma, be taken ill during the examination itself or otherwise disadvantaged or disturbed during an exam, then it is the candidate's, or their parent's / carer's responsibility to alert the examinations officer so that arrangements can be made, and advice given. Candidates are briefed on this in the exam assembly.

The candidate must support any special consideration claim with appropriate evidence within three days of the exam, for example by providing a letter from the candidate's doctor, a death certificate, or other written evidence. In the case of bereavement or similar where the candidate and the circumstances are familiar to pastoral staff the school may certify the absence as genuine. The school will normally require written evidence of illness, bereavement and other circumstances.

The examinations officer will then apply online for special consideration to the relevant awarding body within seven days of the examinations finishing.

Private candidates

Managing private candidates is the responsibility of the Examinations officer.

Internal assessments and appeals

The school has a documented process for ensuring that candidates have the opportunity to request a review of centre awarded marks. The most recent version of this is included in this policy. See Appendix 3.

Appeals against internal assessments. As part of the internal assessment and appeals process it is the duty of Curriculum Team Leaders to ensure that all internal assessment, controlled assessment, non-examination assessment and coursework is ready for despatch at the correct time. They will keep a record of each despatch, including the recipient details and the date and time sent.

Marks for all internally assessed work are provided to the examinations office by the Curriculum Team Leaders.

Results

Results, enquiries about results (EARs) and access to scripts (ATS)

Candidates will receive individual results on results days. Please see guidance issued to students regarding results distribution for further details.

The provision of staff on results days is the responsibility of the Examinations Officer and the Senior Leader.

Enquiries About Results (EAR)

For appropriate series EAR may be requested by centre staff or candidates if there are reasonable grounds for believing there has been an error in marking. The candidate's written consent is required before any EAR is requested, unless it is part of a general review in which results are guaranteed not to change downwards, there may be a fee for this service.

Access to Scripts (ATS)

Where scripts were completed for external examinations:

- Where applicable Centre staff may request scripts for investigation or for teaching purposes. For the latter, the consent of candidates must be obtained.
- Candidates may also request a copy of their script or their original script. Review of marking cannot be applied for once an original script has been returned.
- We will undertake to provide a Post Results Service between results days and the start of term on normal working days 9.00am – 3.00pm.

We will not provide a centrally administered review of marking advice service for accessed scripts: where students wish to get advice about whether to request a review of marking they should request help from subject teachers directly.

Financial hardship

Students in receipt of Pupil Premium funding or considered to be suffering financial hardship may have their EAR fees paid by school at the discretion of the Senior Leader.

Certificates

Certificates are normally presented in person to the candidate and must be signed for.

When certificates are available Covid-19 guidance for distribution will be sort from Public Health England.

Certificates may be collected on behalf of a candidate by third parties, provided they have been authorised to do so by the candidate themselves, by letter or email. A copy of the permission will be kept in the examinations office.

Certificates are withheld from candidates who owe fees.

The centre retains certificates for at least six years.

Conflicts of Interest

We will comply with the JCQ requirements to detect, record and report any potential conflicts of interest.

We will do this by asking all staff members and invigilators to complete a brief form before February half term each year which will record whether any potential conflict of interest may exist. We will then report or retain the information as necessary to comply with JCQ regulations. Further info: [click here for the JCQ General regulations for Approved Centres](#)

Appendix 1: Assessment Malpractice Policy – including Btec

Aims:

- To identify and minimise the risk of malpractice by staff or learners.
- To respond to any incident of alleged malpractice promptly and objectively.
- To standardise and record any investigation of malpractice to ensure openness and fairness.
- To impose appropriate penalties and/or sanctions on learners or staff where incidents (or attempted incidents) of malpractice are proven.
- To protect the integrity of this centre and the qualifications awarded.

In order to do this the centre will:

- Seek to avoid potential malpractice by using the induction period or other suitable opportunities to brief students, and by publishing information in student planners to inform learners of the centre's policy on malpractice and the penalties for attempted and actual incidents of malpractice.
- Show learners the appropriate formats to record cited texts and other materials or information sources. This is the responsibility of curriculum teams.
- Ask learners to declare that their work is their own using the appropriate examining body documentation.
- Ask learners to provide evidence that they have interpreted and synthesised appropriate information and acknowledged any sources used.
- Conduct an investigation in a form commensurate with the nature of the malpractice allegation. Such an investigation will be overseen by the Head and include all personnel linked to the allegation.

Investigations:

In the case of suspected malpractice by an internal **candidate** an investigation will proceed through the following stages:

1. Initial investigation by either the Curriculum Team Leader or the Examinations Officer (depending on whether the malpractice arises within coursework / controlled assessment / assessed assignments / classroom work or in the context of formal examinations arranged by the Examinations Officer). This may involve interviewing

students and staff present at the time of the alleged malpractice or related in some way to the alleged perpetrator of malpractice (e.g. other students on the same course).

2. All evidence will be documented at all stages of any investigation

3. Review of evidence involving the appropriate member of the leadership group, selected by the Head. At this stage any individual suspected of malpractice will normally be verbally informed of the allegations against them and parents will be informed as soon as practically possible. The individual will be made aware at the earliest opportunity of the nature of the alleged malpractice and of the possible consequences should malpractice be proven. The individual will have the opportunity to respond to the allegations made at this stage but may choose to wait until they are accompanied by parents/ carers/ guardians. Notes from any meetings and interviews will be kept by members of staff involved and, where appropriate, witness statements will be taken from students and staff.

4. Once the Head teacher has been informed there may, if necessary, be a further opportunity for candidates to be interviewed while accompanied by parents/ carers/ guardians. At this stage a decision will be made by the centre about the course of action to be pursued and the individual will be informed of the avenues for appealing against any judgment made. Notes from any meetings and interviews will be kept by members of staff involved and students and parents/ carers/ guardians will be given the opportunity to submit written statements or any supporting evidence before a final decision is made.

5. Where malpractice is proven, this centre will apply the following penalties / sanctions:

a) Informing the appropriate examining bodies of the malpractice / alleged malpractice in order that qualifications can be reviewed or withdrawn as judged appropriate by the examining body. The form JCQ/M1 should be used; copies can be found on the Joint Council website, (<https://www.jcq.org.uk/exams-office/malpractice>)

b) Refusing students the right to take further examinations / assessments at the centre

c) Exclusion in line with other school policies

In the case of suspected malpractice by an external **candidate** an investigation will proceed through the following stages:

1. Initial investigation by either the Examinations Officer or an appropriate member of the Extended Leadership Group. This may involve interviewing students

and staff present at the time of the alleged malpractice or related in some way to the alleged perpetrator of malpractice (e.g. other students in the same examination room). Witness statements should be taken and signed in line with the normal school procedure for investigations.

2. Review of evidence involving the appropriate member of the leadership group, selected by the Head. At this stage any individual suspected of malpractice will normally be verbally informed of the allegations against them. The individual will be made aware at the earliest opportunity of the nature of the alleged malpractice and of the possible consequences should malpractice be proven. The individual will have the opportunity to respond to the allegations made at this stage but may, if they are under 18, choose to wait until they are accompanied by parents/ carers/ guardians. Notes from any meetings and interviews will be kept by members of staff involved and, where appropriate, witness statements will be taken from students and staff.

3. Once the Head teacher has been informed there may, if necessary, be a further opportunity for candidates to be interviewed while accompanied by parents/ carers/ guardians. At this stage a decision will be made by the centre about the course of action to be pursued and the individual will be informed of the avenues for appealing against any judgment made. Notes from any meetings and interviews will be kept by members of staff involved and students and parents/ carers/ guardians will be given the opportunity to submit written statements or any supporting evidence before a final decision is made.

4. Where malpractice is proven, this centre may apply the following penalties / sanctions:

- a) Informing the appropriate examining bodies of the malpractice / alleged malpractice in order that qualifications can be reviewed or withdrawn as judged appropriate by the examining body. The form JCQ/M1 should be used; copies can be found on the Joint Council website, (www.jcq.org.uk/).
- b) Refusing students the right to take further examinations / assessments at the centre without a refund of fees for any examinations that have yet to be taken.

In the case of suspected malpractice by a member of staff an investigation will proceed through the following stages:

1. Initial investigation and gathering of evidence by a member of the leadership team and also involving the Head. This may involve interviewing students and other

members of staff, reviewing written / computer-based evidence and communicating with the examining body.

2. Review of evidence by the Head. At this stage any individual suspected of malpractice will normally be verbally informed of the allegations against them. The individual will be made aware at the earliest opportunity of the nature of the alleged malpractice and of the possible consequences should malpractice be proven. Notes from any meetings and interviews will be kept by members of staff involved and, where appropriate, witness statements will be taken from students and staff.

3. Where malpractice is proven, this centre will apply the following penalties / sanctions:

a) Informing the appropriate examining bodies of the malpractice / alleged malpractice in order that qualifications can be reviewed or withdrawn as judged appropriate by the examining body. The form JCQ/M1 should be used; copies can be found on the Joint Council website, (www.jcq.org.uk/).

b) Disciplinary action against the member of staff responsible for the malpractice

The right of appeal

JCQ Appeals booklet states that "internal candidates and/or their parents/carers are not entitled to appeal directly to the awarding body. Representations must be made to the head of centre where the candidate was entered or registered. The Head of centre's decision as to whether to proceed with an appeal is subject to the centre's internal appeals arrangements."

The school's policy in relation to launching an appeal is divided into 2 stages:

1. Candidates and/or their parents/carers against whom a judgement of malpractice has been made by an awarding body should write to the Head within one week of receiving the malpractice decision stating clearly the justification for an appeal. The justification should consist of or refer to evidence that shows procedures have not been correctly followed in the process that led to the malpractice judgement. Where new evidence has come to light this should be shared with the Head. The Head should make a timely decision on whether to appeal on behalf of the candidate and promptly communicate that decision to the candidate and/or parent/ carer.

2. If the Head decides not to proceed with the appeal the candidate and/or parent/ carer may appeal to the Chair of Governors who will form a committee consisting of themselves or their chosen deputy and at least two other governors to review the evidence presented by the Head and the candidate or parent/ carer. They will make a timely decision and instruct the Head whether or not to proceed with an appeal. The governor's decision is final and marks the end of the appeals process.

At all times in the malpractice process where the wishes of the candidate do not coincide with the wishes of their parent/ carer the Head will make the decision as to which course of action is in the best interests of the candidate.

Definition of malpractice by learners

This list is not exhaustive and other instances of malpractice may be considered by this centre at its discretion:

- Plagiarism of any nature.
- Collusion by working collaboratively with other learners to produce work that is submitted as individual learner work.
- Copying (including the use of ICT to aid copying).
- Deliberate destruction of another's work.
- Fabrication of results or evidence.
- False declaration of authenticity in relation to the contents of a portfolio or coursework.
- Impersonation by pretending to be someone else in order to produce the work for another or arranging for another to take one's place in an assessment/examination/test.

Definition of malpractice by centre staff

This list is not exhaustive and other instances of malpractice may be considered by this centre at its discretion:

- Improper assistance to candidates.
- Inventing or changing marks for internally assessed work (coursework or portfolio evidence) where there is insufficient evidence of the candidates' achievement to justify the marks given or assessment decisions made.

- Failure to keep candidate coursework/portfolios of evidence secure.
- Fraudulent claims for certificates.
- Inappropriate retention of certificates.
- Assisting learners in the production of work for assessment, where the support has the potential to influence the outcomes of assessment, for example where the assistance involves centre staff producing work for the learner.
 - Producing falsified witness statements, for example for evidence the learner has not generated.
 - Allowing evidence, which is known by the staff member not to be the learner's own, to be included in a learner's assignment/task/portfolio/coursework.
 - Facilitating and allowing impersonation.
 - Misusing the conditions for special learner requirements, for example where learners are permitted support, such as an amanuensis, this is permissible up to the point where the support has the potential to influence the outcome of the assessment.
 - Falsifying records/certificates, for example by alteration, substitution, or by fraud.
 - Fraudulent certificate claims, that is claiming for a certificate prior to the learner completing all the requirements of assessment.

This policy will be reviewed every 12 months by the Snr Leader Examinations.

Appendix 2: The process for reviewing suitability of access arrangements

The following process is to be used to review suitability of the provision made for students in response to queries from staff, students or parents/ carers. This is intended to ensure fairness for all students, ensure that JCQ requirements have been met and prevent any student from being unreasonably disadvantaged where we are in a position to prevent this from happening.

Stage 1

Has the testing process been completed satisfactorily so that the evidence provided to justify the access arrangements given is accurate, valid and reliable? If not, do certain tests need to be repeated or alternative tests or evidence gathering processes conducted so as to gain an accurate picture of need? If so tests should be arranged ASAP.

Stage 2

Has the appropriate evidence been fully considered in deciding what Access Arrangements are appropriate? Has the paperwork been collated correctly and the correct proposal for access arrangements made? If additional evidence has been provided by staff, students, parents or carers has it been given due consideration?

Stage 3

After due consideration of the evidence available and a review of the current guidance from JCQ/ awarding body does the specialist assessor recommend a change of access arrangements?

Stage 4

After due consideration of the advice of the specialist assessor does the SENCO accept the recommendation of a change of access arrangements?

- Is it practically possible and affordable to provide the support suggested by the specialist assessor?

- Do the proposed changes provide equality of opportunity for students or give an advantage to the recipient of the arrangement. If the former, fine; if the latter consider the possibility that this arrangement would constitute malpractice.
- Are we obliged by legislation or JCQ guidance to provide the arrangements suggested, or any other arrangements not yet suggested?
- If the proposed support for this candidate is deemed to be justified are there other candidates who are equally entitled to this support and should also have their arrangements reviewed? If so, review those cases.

Stage 5

After due consideration of the advice of the specialist assessor and the SENCO does the Senior Leader Examinations accept the recommendation of a change of access arrangements?

Appendix 3: Assessment Appeals Policy

Reviews of marking - centre assessed marks (GCE and GCSE non-examination assessments, BTEC assignments)

Wilmslow High School is committed to ensuring that whenever its staff mark candidates' work this is done fairly, consistently and in accordance with the awarding body's specification and subject-specific associated documents.

We wish to enable learners to make enquiries about assessment decisions and, if necessary, appeal against them. We aim to reach agreement at an early and informal stage, but a formal process exists if this proves impossible. We aim to conduct appeals in a systematic and standardised way and retain records in order to demonstrate openness and fairness. We aim to protect the interests of our learners and the integrity of the qualifications we offer.

Candidates' work will be marked by staff who have appropriate knowledge, understanding and skill, and who have been trained in this activity. Wilmslow High School is committed to ensuring that work produced by candidates is authenticated in line with the requirements of the awarding body. Where a number of subject teachers are involved in marking candidates' work, internal moderation and standardisation will ensure consistency of marking.

1. Wilmslow High school has a staged appeals procedure
2. Wilmslow High School will ensure that candidates are informed of their centre assessed marks so that they may request a review of the centre's marking before marks are submitted to the awarding body.
3. Wilmslow High School will inform candidates that they may request copies of materials to assist them in considering whether to request a review of the centre's marking of the assessment.
4. Wilmslow High School will, having received a request for copies of materials, promptly make them available to the candidate.
5. Wilmslow High School will provide candidates with sufficient time in order to allow them to review copies of materials and reach a decision.
6. Requests for reviews of marking **must** be made in writing on the appeals form published at the bottom of this policy and available in the examinations section of www.wilmslowhigh.com

7. If, at any stage in the assessment process including the review stage, it becomes apparent that the candidate may have been involved in plagiarism or any other form of malpractice then Wilmslow High School will investigate this and follow the relevant policy.
8. Wilmslow High School will allow sufficient time for the review to be carried out, to make any necessary changes to marks and to inform the candidate of the outcome, all before the awarding body's deadline.
9. Wilmslow High School will ensure that the review of marking is carried out by an assessor who has appropriate competence, has had no previous involvement in the assessment of that candidate and has no personal interest in the review.
10. Wilmslow High School will instruct the reviewer to ensure that the candidate's mark is consistent with the standard set by the centre. The outcome of a review may therefore be one of the following:
 - a. The mark may remain unchanged
 - b. The mark may be increased if the reviewer finds that the mark scheme was not reasonably applied by the original assessor/s
 - c. The mark may be decreased if the reviewer finds that the mark scheme was not reasonably applied by the original assessor/s
11. Because of the tight timescales involved there is no further route for appeal once a review has been conducted, however the school's complaints policy is available for those who may wish to bring to our attention any perceived failures in the way we have assessed or reviewed assessment.
12. The candidate will be informed by email of the outcome of the review of the centre's marking.
13. The outcome of the review of the centre's marking will be made known to the head of centre and the school will consider whether the request constitutes a complaint under the school's complaints policy. A written record will be kept and made available to the awarding body upon request. Should the review of the centre's marking bring any irregularity in procedures to light, the awarding body will be informed immediately.
14. The Senior leader examinations at Wilmslow high School will monitor appeals to inform quality improvement

After candidates' work has been internally assessed, it is moderated by the awarding body to ensure consistency in marking between centres. The moderation process may lead to mark changes. This process is outside the control of Wilmslow High School and is not covered by this procedure.

Appeals against the school's decision not to request a post-results service

In normal circumstances the school will support any well-considered request from a candidate for the standard post results services (Clerical check (service 1), Review and priority review of marking (service 2), Moderation review (service 3), Priority copy of marked paper (access to scripts), Original marked paper or recording (access to scripts)).

However, there are certain circumstances where we will not do so, for example if we believe that the action would not be in the candidate's best interest, because there is a risk of it adversely affecting another candidate (e.g. with a request for a review of moderation), or because the impact in school in terms of cost, time or other resources outweighs the potential benefit from the action.

If we make such a decision then candidates, or their parents/ carers, may appeal to us by completing the appeals form in the examinations section of the school website submitted to the centre by completing the internal appeals form at least 5 working days prior to the internal deadline for submitting the relevant post-results service. The appeal will be considered by the line manager of the person who made the original decision and the appellant will be informed of the outcome of his/her appeal before the internal deadline for submitting an EAR.

Appeals against the outcome of external examination and controlled assessment results.

Only the school can mount an appeal to a JCQ awarding body. An appeal can only be requested if a candidate has already requested and received the outcome of a review of marking or moderation review.

Appeals are **not** part of the range of post-results services that we provide to students; they are a process that the school will use if and only if there is evidence that an awarding body has failed to

- use procedures that were consistent with regulatory requirements
- apply its procedures properly and fairly in arriving at judgements
- properly apply the mark scheme in AS, A-level and project qualifications.

Candidates or their parent(s)/ carer(s) may bring to the attention of the school cases where they believe that an appeal may be justified. If they do so they are expected to provide a clear account of which of the conditions stipulated above has been

breached and to provide the evidence necessary to show that this is the case. Where the school believes that a valid case can be made they may choose to mount an appeal. The school will make the judgement about whether an appeal is sufficiently justified to be made to an awarding body on the basis of whether to do so would be a good use of school funds and resources; in doing so they may require a contribution to those costs. The candidate or a parent/ carer of the candidate may be required to pay all or part of the costs of mounting the appeal. This will depend on the nature of the issue being appealed and the extent to which the school feels the candidate has provided good evidence to support it, the likelihood of success and the likely impact of a successful appeal.

We will not support appeals where the motivation is speculative; e.g. an attempt to gain a few more marks to move a student over a grade boundary. We will support appeals where there are strong grounds to believe that a candidate's rights have been breached or they have clearly been treated unfairly.

Candidates, or their parents/ carers, may appeal to us by completing the appeals form in the examinations section of the school website submitted to the centre by completing the internal appeals form at least 10 working days prior to the deadline for submitting the appeal to the awarding body. Candidates and their parents/ carers are encouraged to look for information about appeals on the website of the relevant awarding body and at <https://www.jcq.org.uk/exams-office/appeals>.

Appeals against malpractice decisions – when an awarding body has applied a malpractice penalty.

These appeals go straight to stage two (appeal hearing). The school will only appeal malpractice decisions in exceptional circumstances when there is compelling evidence that the awarding body have failed to apply appropriate and reasonable procedures. The basis on which we will pursue this is similar to that for appeals against the outcome of external examination and controlled assessment results: we will do it only when we believe it is well justified and a good use of school funds and resources, and we may require a contribution to cover costs.

We will not support appeals where the motivation is speculative; e.g. an attempt to gain a few more marks to move a student over a grade boundary. We will support appeals where there are strong grounds to believe that a candidate's rights have been breached or they have clearly been treated unfairly.

Candidates, or their parents/ carers, may appeal to us by completing the appeals form in the examinations section of the school website submitted to the centre by completing the internal appeals form at least 10 working days prior to the deadline for submitting the appeal to the awarding body. Candidates and their parents/ carers are encouraged to look for information about appeals on the website of the relevant awarding body and at <https://www.jcq.org.uk/exams-office/appeals>.

Appeals against access arrangements and special consideration decisions

If an awarding body has declined an application for special consideration or the school disagrees with the level of adjustment made in response to a special consideration request, then we may choose to mount an appeal. Our experience is that the awarding bodies are normally very reasonable in their application of these processes so we will only mount an appeal in exceptional circumstances where there is compelling evidence that a reasonable policy or procedure has not been applied. We will not support appeals where the motivation is speculative; e.g. an attempt to gain a few more marks to move a student over a grade boundary. We will support appeals where there are strong grounds to believe that a candidate's rights have been breached or they have clearly been treated unfairly.

Candidates, or their parents/ carers, may appeal to us by completing the appeals form in the examinations section of the school website submitted to the centre by completing the internal appeals form at least 10 working days prior to the deadline for submitting the appeal to the awarding body. Candidates and their parents/ carers are encouraged to look for information about appeals on the website of the relevant awarding body and at <https://www.jcq.org.uk/exams-office/appeals>.

Internal Appeals Form

This form should be completed to lodge an appeal.

Please tick box to indicate the nature of your appeal and complete all white boxes on the form below:

- Appeal against an internal assessment decision and/or request for a review of marking
- Appeal against the centre's decision not to support a clerical check, a review of marking, a review of moderation or an appeal
- A request for the school to launch an appeal to an awarding body in relation to the outcome of a post-results service, a malpractice decision, an access arrangements decision or a special consideration request.

Date Received	

The appellant declaration against the relevant appeal must be signed, dated and returned to the EO, on behalf of the Head of centre, to the timescale indicated in the Internal Appeals Procedure.

Awarding body		Exam paper / NEA code	
Subject		Exam paper or NEA task name	

Please state the grounds for your appeal below:

Date of signature:

(If applicable, tick below)

- Where my appeal is against an internal assessment decision I wish to request a review of the centre's marking and I understand that my mark may be reduced in this process and that that may have an impact on the final grade I achieve in this qualification**

Process for ensuring a review opportunity for centre awarded marks

It is now a requirement that we publish the non-examined assessment/ coursework marks awarded by teachers to parents and students in sufficient time for them to request a review of marking from school before we submit the marks to the examination board.

This means that the work must be marked and moderated, and the marks sent home to parents/ carers around 10 days before mark submission.

The deadline for submission of most coursework/ NEA marks is 15th May This means that we really need to send marks out to parents/ carers near the start of May.

The Easter INSET day is and this is normally used for moderation.

After this, work will need to be marked and marks recorded into SIMS to enable us to formally send out the results.

Wave 1: Subjects with 7th May submission date (subjects and dates to be confirmed)

Marks submitted to awarding body by	tba

Questions:

Where do we record our coursework marks; we always used to do it on the examination board website?

Marks must now be recorded into Examinations Organiser marksheets instead so that we have the data in SIMS in order to report them to parents.

What if we get a lot of requests for reviews, how will we cope?

We do not know how many requests we will get, but it would be wise to mark the period 7th to 9th May in your diary as being a busy time. We are warning candidates that reviews of marking can result in marks going down as well as up, and we are requiring them to give a justification for their review request – there must be some evidence.

Is the timing sufficient?

It is very tight. The sooner you are able to publish marks to students, the better. Teams can publish marks to students through firefly and point them to the examinations section of the school website if they wish to consider requesting a review.

Does this apply to BTEC courses?

BTEC assignments have always been open to requests for review

Useful links:

<http://www.aqa.org.uk/examinations-administration/dates-and-timetables/deadlines-for-controlled-assessment>

<http://www.aqa.org.uk/examinations-administration/coursework-controlled-assessment-nea/submit-marks>

http://filestore.aqa.org.uk/admin/library/AQA_ESUBS_INST.PDF

BTEC subjects that include internally assessed units: a similar process can be applied in that a student's work may be reviewed and then resubmitted within 15 working days, see the following link:

Appendix 5: Calculator Policy

Calculator Policy 2020-2021

Authors

- ***Mr D Jones Senior Leader Examinations***
- ***Mr K MacHugh Curriculum Team Leader Mathematics***

It is helpful for all students and their parents/ carers to understand our policy in relation to calculators. The mathematics department have settled on a preferred model of calculator: the **Casio fx-83GTX**. We recommend that all students in Years 7 to 11 have this model of calculator. It is part of the standard equipment needed each day in school, along with a personal reading book and a properly equipped pencil case containing pens, pencils, rubber, pencil sharpener, protractor, ruler and a pair of compasses.

The fx-83GTX is sold in Printworks, and is widely available from other retailers, e.g. [Amazon](#).

When students get their new calculator they should ensure they keep the instruction manual or [download a copy here](#).

We know that this cost will be a difficulty for some families and would encourage those students or their parents/ carers to discuss this with either their form tutor, Head of House, or Student Manager so that we can find a way to help.

Students should also ensure that they *bring the calculator to every examination* in mathematics, science, business studies, design and technology and any other subject where there is the slightest possibility of a calculation being necessary. Although the first mathematics paper is often a non-calculator paper, students are allowed to leave their calculator on the floor below their desk for these examinations. We also strongly encourage students to have spare equipment in crucial external examinations *including a spare calculator if possible*. This could be borrowed for the exam period – it's better to be safe than sorry.

Everyone should understand our policy about lending calculators for examinations:

1. In **external** (e.g. GCSE and A-Level) examinations we will, *where possible*, lend students a calculator if it is required for an examination.

However, all students should be aware that, if a large number of students fail to bring a calculator and then discover that it is necessary, we may run out of our stock of emergency calculators and be unable to help. *We are therefore not able to promise that we will be able to lend a calculator, or that if we do lend a calculator it will be suitable for the candidate's needs.* We have a large stock of calculators for lending but we have experienced situations where a large number of ill equipped candidates have asked to borrow one: please do not rely on being able to borrow one.

- For **school** examinations, and mock examinations we operate a very clear policy of *not lending any equipment* other than a pen during examinations.

This may seem inflexible and unhelpful but years of experience have taught us that unless we are clear with students from an early point about whose responsibility it is to arrive at an examination properly equipped, there exists a group of students who will learn to not take responsibility and always rely on being looked after.

There are two exceptions to this.

1. If a child has suffered a domestic difficulty that means that they have been unable to arrive at school properly equipped then they should discuss this with their form tutor or another member of the pastoral team, who will do their best to help, before the examination is due to start, or as soon as they get to school if they are late.

If a piece of equipment breaks during an examination, then we will do our best to offer a temporary replacement. This can include calculators, compasses, protractors etc.

Appendix 6: Emergency evacuation procedure for examinations

Procedure for responding to the fire alarm bell

As a means of communication during the examination the lead invigilator of the exam venue must have a mobile telephone turned on, in silent mode.

Reference should be made to the document 'Procedures for handling bomb threats' (see below) during invigilator training.

The following actions must be taken by invigilators in the event of a fire alarm or bomb alert:

1. Stop the candidates from writing.
2. Make a note of the time.
3. If in the sports hall/assembly hall await further instruction, if it appears safe to do so. If no instructions come within **1 minute**, proceed with evacuation as below

If not safe to do so, or the exam is taking place in a small room, proceed as follows:

4. Collect the attendance register, if available, and seating plan, as a means of checking all candidates are present.
5. Sports Hall; leave all question papers in the examination room.
6. Small Room; collect all question papers, if safe to do so and keep securely.
7. Sports Hall; secure all doors upon leaving, if safe to do so.
8. Evacuate the examination room ensuring candidates leave the room in silence.
9. Ensure candidates are supervised as closely as possible whilst out of the examination room to make sure there is no discussion about the examination.
10. Once the decision is made that it is safe to return to the examination venue escort the candidates back to their seats, make a note of the time and re-start the examination.
11. Add the interruption time onto the original finish time to ensure all candidates are allocated their full time.
12. Once the examination has finished write a full report of the incident, include any timings and the action taken and pass onto the examinations officer.
13. The report must then be sent to the relevant awarding body by the exams office.

Procedures for handling bomb threats

Advice on this is available here:

<https://www.gov.uk/government/publications/bomb-threats-guidance/procedures-for-handling-bomb-threats>

This information should be covered briefly during invigilator training and the key members of the exams team (Exams Officers, Lead Invigilators and all members of the school's leadership group) should be aware of the contents. School evacuation policy is designed with this advice in mind.

Appendix 7: Candidate Identity Risk Assessment

Risk	Possible Impact	Likelihood	Overall Risk	Action to reduce risk	Overall Risk after action
External candidate taking examinations under a false identity	Risk to integrity of qualification, identity fraud, reputational damage	Moderate	Moderate	Check formal ID documents including photo ID when candidate arrives to take examination. 1 of Utility bill / marriage certificate / birth certificate	Low
	Safeguarding of other students/ staff compromised	Very low	Low	1 of passport / driving license / other high quality photo ID	
Sixth former enrolling in Sixth Form under a false identity	Risk to integrity of qualification, identity fraud, reputational damage, safeguarding of staff/	Very low	Low	Check formal ID documents including photo ID at enrolment See birth certificate or equivalent.	Very low

	students compromised				
"False" candidate sitting examination on behalf of a sixth former	Risk to integrity of qualification, identity fraud, reputational damage, safeguarding of staff/ students compromised	Low	Moderate	<p>All students to be wearing ID badges for exams - invigilators to check for this.</p> <p>Spot checks for malpractice at the start of exams to include checking ID badge photos.</p> <p>Vigilance of sixth form pastoral staff prior to exams.</p>	Low
"False" candidate sitting examination on behalf of a Year 9 to Year 11 student.	Risk to integrity of qualification, identity fraud, reputational damage, safeguarding of staff/ students compromised	Very Low	Low	<p>All students to be wearing school uniform and have year 11 identity badge.</p> <p>Spot checks for malpractice at the start of exams to include checking identity of students (school staff will know the students).</p>	Low

				<p>Vigilance of school pastoral staff prior to exams.</p> <p>Use of SIMS photos for the 'yellow exam identification cards'.</p>

Appendix 8: Advice for parents and students requesting a smaller/ different venue for examinations

We have experienced in recent years a significant increase in the number of requests for children to be accommodated differently for their examinations. This is due in part to increased awareness of anxiety and the impact it has on students, but also reflects an entirely understandable wish on the part of parents to ensure that their child has the best possible conditions for assessment.

We know that sitting in a large hall taking an examination can be a traumatic experience for some students. We know also that some students are very easily distracted, and parents are often of the opinion that a large examination venue is a more distracting place to be than a small venue.

Unfortunately, the level of demand for this provision is now very high and, whereas ten years ago it was very rare indeed to have children take exams anywhere other than the hall or sports hall, it is now normal for us to run several smaller venues every examination season. There are limits to what can be provided here due to the space we have available in a very full school building and the additional complexity of running examinations in multiple locations. We must, therefore, allocate resources based on greatest need and we have to ask parents to trust us as we make the decisions about who needs this provision the most.

We do not accommodate everyone who requests this provision; were we to do so we would quickly run out of capacity and then be unable to accommodate any very needy new cases which arise.

In making the decision about who needs a smaller venue we will normally ask for supporting evidence from a specialist psychiatrist in the case of students suffering extreme anxiety, or evidence from teachers and the Learning Support Team where the issue being addressed is more related to the Special Educational Needs of the student.

Concentration difficulties

In the case of students with ADHD, or other conditions which mean they find it hard to sustain concentration, a smaller venue may or may not help them. We form a view about this in two ways:

- 1) By considering what their normal way of working in the classroom is. If they normally need special arrangements such as close supervision from a Learning Support Assistant or taking a writing task outside the classroom to work on their own, then we will want to consider how we can replicate that normal way of working in an examination.
- 2) By going through a monitoring process involving our invigilators. The student takes examinations in the normal venue and an invigilator is nominated to monitor that student and make notes during each examination about how well they remain on task, how distracted they appear to be and how much time they are spending not focused on the assessment task. In mock examinations we may also allow an invigilator to prompt them when they are unfocused so that we can see whether the provision of a prompter in external examinations would help the student to access the assessment fully. If we then decide that it is worth trying a smaller venue, we will also want to review later whether the change of venue has actually given them fairer access to the assessment or not. If it has failed to do so then we may judge that it is better to revert to the normal arrangement

Anxiety

For students who suffer from extreme anxiety the solution to this problem is different for each student but there are a variety of things we can do to help:

- 1) Ensuring that students understand that examinations are a routine part of life that happen every year and are just a normal part of learning – this is why we have students take formal examinations twice a year all the way through secondary school, and we treat all of these examinations as significant opportunities to perform and show ourselves at our best.
- 2) Additional examination practice – many students find it helpful to address their fears directly and practise taking examinations in a formal venue. This can help to normalise the venue and desensitise the student to the psychological triggers that cause them to experience feelings of panic. For this reason, we run examination practice sessions every week after school, which teachers can sign students up for.
- 3) Counselling and support – please talk to your child’s Head of House or encourage your child to visit the Wellbeing Hub or talk to their form tutor to

discuss their anxiety so that we can consider which support route to refer them to.

- 4) Adjusting their seat allocation in the exam hall – for some students simply being moved to the back or the front of the hall makes a big difference.
- 5) For a small number of students, we will make the decision to seat them in a smaller venue, but only once we are happy that students have properly tried the other possible solutions to their difficulty. This may come across as us being bureaucratic, unsympathetic or unhelpful but in fact it is just us trying to be fair to everyone whilst trying to help students to manage a condition which could affect them for the rest of their lives if they do not develop effective strategies.

What can you do if you are unhappy with our decision?

If you feel that your child's needs have not been considered properly then the first thing to do is to contact us and set out your concerns and outline what you think a good solution might be. You can write, or speak, to Mrs Cotton, our examinations officer.

If you have done this and you still think that a mistake has been made then please contact Mr Jones, Senior Leader in Examinations. He will review whether school policies have been followed and whether we have considered properly any evidence we have in relation to the request being made.

If you are still not happy with the arrangements being made then you should follow the school's complaints procedure, details of which can be found on the school website.

Please remember at all points that we are simply people trying to do our best to meet the needs of a large number of children with disparate needs within the limits of very strict examination rules. We may make mistakes in doing that and, if we do, we will seek to put them right when they are drawn to our attention. Please be balanced, polite and reasonable in your communications with us and we will seek to do the same with you.

Appendix 9: Use of Laptop and Word Processor in Examinations

Examination access arrangements

Word processor

Laptop and Word Processor Policy 2020-2021

Author Mr D Jones Senior Leader Examinations

Wilmslow High School recognises that some students may benefit from the use of a word processing device such as a laptop, a PC, or a tablet computer in order to overcome difficulties related to:

- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly;
- a medical condition;
- a physical disability;
- a sensory impairment;
- poor handwriting;
- planning and organisational problems when writing by hand.

This list is not exhaustive.

Who will provide a word processor?

The school has a limited amount of equipment to loan to students and a limited amount of money with which to purchase new equipment. The school therefore reserves the right to prioritise the allocation of equipment according to greatest needs whilst recognising our obligation to make suitable provision for all students.

In order to enable students who would learn and achieve most effectively by having a word processor as their normal way of working the school will facilitate the loan of a laptop (if one is available) to the parents/ carers of such students as identified by the testing carried out by the Learning Support team. This will enable students to use

their laptops both at school and at home; for lessons, for homework and for assessment. Loaned laptops will be maintained by the school, and kept by the student. The school will provide suitable storage and charging points for these machines during break times and while students are taking part in PE lessons, extra-curricular activities etc.

Students may, by arrangement with the SENCO, bring their own portable word processing equipment into school. In this case the safety and risk of loss or damage associated with bringing an electronic item into school rests with the student and their parent and the school accepts no responsibility for ensuring the item is kept safe. No item which could be in any way dangerous to any student or adult in school should be brought to school by any student. Access to the school's network, printers, mains electricity or the Internet may not be possible with students' own equipment and should not be assumed. Students are expected to bring such devices to school with sufficient charge to last the day and safe storage and charging points are not guaranteed.

Examination access arrangements

1. Word processor

The school will grant use of a word processor as an *examination access arrangement* where this is a student's normal way of working within school and for completing home learning, and is appropriate to their needs in a given examination.

A Specialist Assessor/SENCO will consider that the use of a word processor is a student's *normal way of working* in the following types of circumstance:

- Where a student's handwriting is so bad that it is necessary for their home learning and class work to be word-processed in order for teachers to understand it
- Where a student's speed of handwriting is so slow that their progress in learning is significantly hampered.
- Where a student's specific learning difficulty means that it is easier for them to organise their thinking and demonstrate their learning through a word processor

- Where a student would normally take school assessments and examinations using a word-processor as a result of testing carried out by a Specialist Assessor.
- Where there is a medical condition detailed by a medical professional recognised by the Health & Care Professionals Council (HCPC). This does not include the student's own GP.

A word processor will only be issued to a student for examinations where it reduces the effect of a disability or difficulty that places the learner at a disadvantage. Equally the use of a word processor must not further disadvantage the learner. Therefore, where their speed of writing is greater than their typing speed, and their handwriting is legible, students will not be allowed to use a laptop or similar in examinations.

Saving work in examinations

It is the student's responsibility to ensure that they check and save copies of their work regularly during an examination and that, at the end of the examination, they save their work both onto the portable memory device provided and on the hard drive of the laptop itself. Students will be trained to do this in preparation for examinations by the Learning Support team. At the end of the examination the work that the student has saved will be printed by the invigilator.

If students are given the entitlement to use a word processor in examinations but decline to make use of this entitlement for the examinations for which it is intended, that entitlement will be removed. Parents will be informed in writing (by email or in hard copy) when this happens.

Dictation Software

Where a student finds it difficult to type or handwrite at a reasonable speed and accuracy/ legibility, the use of dictation software may be appropriate. In order to be allowed this *access arrangement* a student must be entitled to the use of a *scribe* in line with JCQ guidelines. Furthermore, the student must have practised the use of dictation software so that they are able to work quickly and accurately without

technical assistance during an examination. This should be their normal way of working, and students can practise with the dictation tools in Word and Google Docs in order to get used to the process.

Reading Software

It is the school's policy to use Computer Reader Software as the first preference for arrangements for students who need help with reading in examinations. This is because it enables students to get passages repeated as many times as needed without embarrassment. It has the further advantage of enabling students to have reading assistance, without losing SPaG marks, in *all* examinations where reading is assessed including the English reading paper. This should be their normal way of working, and students can practise with the Read-Write software at home in order to get used to the process. Training will be provided in school by either the Exams Team or the Learning Support Team.

The school will grant use of computer reader literacy support software as an *examination access arrangement* where this is a student's normal way of working within school and for completing home learning, and is appropriate to their needs in a given examination.

A Specialist Assessor/SENCO will consider that the use of this software is a student's *normal way of working* in the following types of circumstance:

- Where a student can demonstrate their attainment more effectively and independently than would be possible with a reader.
- A computer reader must be appropriate to the candidate's needs.
- There must be sufficient time and training to ensure the candidate is able to use a computer reader effectively
- Where a student would normally take school assessments and examinations using a Computer Reader as a result of testing carried out by a Specialist Assessor.
- Where there is a medical condition detailed by a medical professional recognised by the Health & Care Professionals Council (HCPC). This does not include the student's own GP.

Saving work in examinations

The Exam Writepad software we use automatically saves students' work to the laptop hard drive during the examination; invigilators then save an additional copy to the USB stick at the end of the exam. Students are trained in using Writepad in preparation for examinations by the Exams team.

If students are given the entitlement to use a word processor in examinations but decline to make use of this entitlement for the examinations for which it is intended, that entitlement will be removed. Parents will be informed in writing (by email or in hard copy) when this happens.

Appendix 10 Wilmslow High School Assessment Policy

Aim:

1. To ensure that assessment methodology is valid, reliable and does not disadvantage or advantage any group of learners or individuals
2. To ensure that the assessment procedure is open, fair and free from bias and to national standards
3. To ensure that there is accurate and detailed recording of assessment decisions.

In order to do this, Wilmslow High school will:

- Ensure that learners are provided with assignments that are fit for purpose, to enable them to produce appropriate evidence for assessment. All assignment briefs are required to be internally verified early September
- Produce a clear and accurate assessment plan at the start of the programme/academic year. Assignment plans are submitted to the Quality Nominee by the end of September
- Provide clear, published dates for handout of assignments and deadlines for assessment

- Assess learner's evidence using only the published assessment and grading criteria
- Ensure assessment practices meet current BTEC assessment requirements and guidance
- Ensure that assessment decisions are impartial, valid and reliable
- not limit or 'cap' learner achievement if work is submitted late, providing this meets with BTEC submission requirements
- Develop assessment procedures that will minimise the opportunity for Malpractice
- Maintain accurate and detailed records of assessment decisions
- Maintain a robust and rigorous internal verification procedure
- Provide samples for standards verification/external examination as required by the awarding organisation
- Monitor standards verification/external examination reports and undertake any remedial action required
- Share good assessment practice between all BTEC programme teams, this is coordinated by the Applied Learning Lead
- Ensure that BTEC assessment methodology and the role of the assessor are understood by all BTEC staff and that the Online Support for Centre Assessors (OSCA) process is completed by all BTEC teachers by the end of October. The Lead IV must accurately update Edexcel Online Registration to identify which courses are being delivered and that the OSCA has been completed. This is communicated and coordinated by the Applied Learning lead
- Provide resources to ensure that assessment can be performed accurately and appropriately
- Maintain and store securely all assessment and internal verification records in accordance with Pearson Approval Centre Agreement

Appendix 11: Internal Verification Policy for BTEC courses

Policy Aims:

1. To ensure there is an accredited Lead Internal Verifier in each principal subject area
2. To ensure that Internal Verification is valid, reliable and covers all Assessors and programme activity.
3. To ensure that the Internal Verification procedure is open, fair and free from bias
4. To ensure that there is accurate and detailed recording of Internal Verification decisions.

In order to do this, Wilmslow High School will ensure that:

1. Where required by the qualification, a Lead Internal Verifier is appropriately appointed for each subject area, is registered with Pearson and has undergone the necessary standardisation processes.
2. Each Lead Internal Verifier oversees effective Internal Verification systems in their subject area, following the required OSCA process or equivalent.
3. Staff are briefed and trained in the requirements for current Internal Verification procedures; this is ensured through our CPD processes and considered carefully in the timetabling and curriculum development processes in school. The Quality Nominee is responsible to requesting sufficient INSET time to enable BTEC assessors to be fully trained, and ensuring that lead IVs are able to deliver this training.
4. Effective Internal Verification roles are defined, maintained and supported
Internal Verification is promoted as a developmental process between staff; Internal Verifiers for different courses collaborate through termly meetings with the Senior leader Examinations to ensure that the approach is consistent for different courses
5. Standardised Internal Verification documentation is provided by the IV for each course and used by all the assessors.
6. All centre assessment instruments are verified as fit for purpose at the outset of the course with the Centre Quality Nominee ensuring that courses and assessment tasks are properly planned and meet the required standards
7. An annual Internal Verification schedule, linked to assessment plans, is in place

8. An appropriately structured sample of assessment from all programmes, units, sites and Assessors is Internally Verified, to ensure centre programmes conform to national standards
9. Secure records of all Internal Verification activity are maintained by teams using locked office drawers and properly backed up electronic storage.
10. The outcome of Internal Verification is used to enhance future assessment practice.

Appendix 12: BTEC Registration and Certification Policy

Aims:

1. To register individual learners to the correct programme within agreed timescales.
2. To claim valid learner certificates within agreed timescales.
3. To construct a secure, accurate and accessible audit trail to ensure that individual learner registration and certification claims can be tracked to the certificate which is issued for each learner.

In order to do this, Wilmslow High School, will:

1. Register each learner within the awarding body requirements through the course details in Firefly
2. Register each learner on the appropriate programme code, before any assessment activity is completed
3. Provide a mechanism for programme teams to check the accuracy of learner registrations
4. Make each learner aware of their registration status by providing a statement of entry from Exams Organiser
5. Inform the awarding body of withdrawals, transfers or changes to learner details through the usual examination administrative procedures
6. Ensure that certificate claims are timely and based solely on internally verified assessment records
7. Audit certificate claims made to the awarding body; Quality Nominee to ensure this is done at the appropriate time
8. Audit the certificates received from the awarding body to ensure accuracy and completeness
9. Keep all records safely and securely for three years post certification.

Procedures:

Registration:

1. Registration mark sheets, listing students in each BTEC class against the corresponding BTEC specification, will be compiled by the exams team in September and emailed to departments for checking, signing and returning

2. All mark sheets must be returned and submitted to the awarding body prior to the 1st November deadline via EDI as confirmation of registration.

Transfer/ Withdrawal:

1. The exams office must be notified in writing of any students that are to be transferred to an alternative level of BTEC qualification or withdrawn.
2. For further information on transferring students see the following link:
<https://qualifications.pearson.com/en/support/support-topics/registrations-and-entries/vocational-registrations.html>
3. For full refund of the initial registration fee students must not have sat any units and be withdrawn prior to the 31st January deadline.
4. For refund of any external assessments that students have been entered for during the academic year entries must be withdrawn by the deadline listed in the key dates section of the information manual:
<https://qualifications.pearson.com/content/dam/pdf/Support/Information-manual/2-Key-Dates-section-uk.pdf>

Unit Certification

1. Departments are responsible for inputting candidates internally assessed marks onto Edexcel Online by the awarding bodies deadline, date to be advised.
2. Following completion of the qualification and by the 31st May deadline, the exams team will submit a results entry file to the awarding body via EDI in readiness for the August results day.

Certification

1. Upon receipt of BTEC certificates from the awarding body the exams team will carry out a 10% check as follows:-
2. A copy of the results achieved by the cohort for each BTEC qualification in the relevant academic year will be printed out from Edexcel Online
3. Details will be checked, for 10% of the candidates, against the corresponding certificate by a member of the exams team.
4. Once checked for accuracy if no amendments are required the result sheet will be signed, dated and kept on file for a total of three years.
5. If amendments are required a copy of the original certificate will be made and stored in secure storage. The original certificate will then be posted out to Pearsons with an explanatory letter detailing the changes to be made.

Any further information required regarding registration and certification procedures can be found in the Information Manual available on the Pearsons website:

Appendix 13: Covid-19 Contingency plans

Planning for Covid 19 safe examinations

The school has taken the following steps to ensure Covid-19 safe examinations

1. Large capacity venue (sports Hall) is not being utilised
2. Smaller venues have had their capacity reduced and been chosen for good ventilation. Additional seating breaks are in place to allow 2 M separation for invigilators
3. Invigilator training has been enhanced to include the whole school 'Universal level 1 training package' and the specific Invigilator guidance
4. General advice to all staff and students. If there's a chance you could have COVID-19;
 - Stay at home
 - Inform school
 - Arrange for a test by visiting <https://111.nhs.uk/>
 - If you live with someone who has symptoms, you'll need to stay at home for 14 days from the day their symptoms started. This is because it can take 14 days for symptoms to appear.
5. Students wash hands on entry to school and sanitise on entry to examination
6. Face coverings worn to the seat and then optionally removed. A visual check of covering by invigilators to ensure no opportunity for malpractice
7. Desks sanitised prior to candidate arriving and then at the end of the examination by the candidate
8. We would request that students and staff follow Coronavirus (COVID-19) safer travel guidance for passengers when planning their travel to school

<https://www.gov.uk/guidance/coronavirus-covid-19-safer-travel-guidance-for-passengers>

9. Any equipment lent will not be returned unless we are able to sanitise it or quarantine accordingly.

Escalation Plan in case of staff absence.

Named Person	Role	Contingency Staff
S Cotton Snr Examinations officer	Examinations Officer – to manage and administer	Louise Jenkins – Examinations officer (offsite advice) Corraine O’Malley – Data Team Jean Bazley – Heads PA Keyholders – J Pulle, J Bazley, S Cotton, L Jenkins , D Wheeler, G Crookes
D Jones – Assistant Headteacher examinations	Provide support and guidance to the examinations officer and ensure that the integrity and security of examinations and assessments is maintained throughout an examination series	Deputy Headteacher Ruth Powley Headteacher Dr J Pulle Data Manager D Allcock
Dr J Pulle – Head of Centre	To ensure compliance with the published JCQ regulations and awarding body requirements in order to deliver the qualification(s).	Assistant Headteacher examinations D Jones Deputy Headteacher Ruth Powley

How Invigilators support in Examinations

- **Face covering expectation:** Any Invigilator may wear an appropriate face covering and/or a face visor. This is a matter of personal choice. It is not required for the protection of either themselves or the students they are supporting unless specified in the student's individual healthcare plan. The school will provide each Invigilator work base with a supply of disposable face coverings and a number of the new style face visors.
- **Access to PPE, hand gel and wipes:** Every Examination venue has an emergency PPE pack for use if a student requires emergency assistance. PPE is not necessary for the safety of an Invigilator carrying out their expected duties unless specified in student's individual healthcare plans. That said, any Invigilator may choose to wear PPE if it will make them feel safer and more comfortable. Any Invigilator may request their own personal PPE pack . This will include appropriate PPE, hand sanitiser gel and hard surface wipes. The Invigilator should identify an area in the exam venue where these items can be kept.
- **Examination support expectation:** The expectation is that Invigilators will support students in the exam venues as 'normal'. This will require the Invigilator to move within the exam venue, be a presence near the students to supervise and ensure compliance with regulations. Wherever possible, social distancing should be maintained when support is given, though it is likely that there will be occasions when it is not possible to keep to a two meter distance, in these instances appropriate face coverings should be worn and conversations should not be face to face. Parallel is the optimum position for a brief amount of time one metre apart.
- **Movement within the Examination Venue:** Invigilators are free to move within the venue to support and monitor students. When stationary for any length of time this should be within the areas which support two metre social distancing.

- **Ongoing access to training and support:** It is recognised that in these challenging times that Invigilator staff will need access to training and support so that they continue to develop their effective practice in this area.

Year Group Isolated due to COVID 19

- At all times the school will follow the advice and guidance issued by Public Health England relating to the isolation of a year group. Decisions to isolate year groups will follow the appropriate in school policies. As at 15.10.20 following a positive case in school students will self-isolate from the end of the school day thereby allowing assessments on the date in question to continue. However this is subject to advice from Public Health England and the Track and Trace Service.
- JCQ and OFQUAL advice is pending on this area.
- Normal special consideration processes will be followed in case of partial completion of the examination

What health and safety requirements will apply to the school site?

We will continue to follow the system of controls in place on the school site.

- Ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not visit the school site.
- Cleaning hands more often than usual using the handwashing stations on the school site
- Ensuring good respiratory hygiene by promoting the 'catch it, bin it, kill it, approach
- We will be cleaning frequently touched surfaces often using our standard products

- We will be minimising contact and mixing as far as possible by maintaining social distancing and restricting the number of people on site and in enclosed areas. For this reason, students can only be accompanied on site by **one** other adult
